PERMEX SHUTTERS - FEATURED ON HOME AGAIN WITH BOB VILA

FOR IMMEDIATE RELEASE

CONTACT: Barbara P. Heddinge 843.795.1420, e-mail bhpr@dycon.com

PERMEX SHUTTERS were featured on *Home Again With Bob Vila*, in a segment that was filmed in Mashpee, MA. The shutters were used for a group of Affordable Housing Homes set in a development. Massachusetts law states that there has to be 25% affordable housing in any new development in the state, and they must look like the other the other homes. J&L was glad to help.

Builder Wes Lohr was seen on this segment of Home Again discussing the benefits of using J&L/PERMEX Shutters instead of the standard wooden shutter. "The shutters are great, he said, they look exactly like wood but are completely synthetic. They are ideal for cold climates where you get a lot of rain and snow."

The J&L/Permex Shutter was developed to offer the elegance of a custom built wooden exterior shutter with some very distinct advantages. J&L/Permex Shutters are completely unaffected by moisture, they will not rot, swell, warp, chip or crack. They are backed by a lifetime warranty, as well as a 10-year paint finish warranty.

J&L Shutters has created the only maintenance free, historically correct, functional exterior shutter on the market today. They are available in a variety of styles, sizes and colors. And they offer a shutter for every home and budget.
